Funding

Measure, Appointment or
Topic: LC 2

Dear Joint Interim Committee - I ask that you do not pass the reduced transportation package. The Republicans have a bill that would reallocate funds within ODOT, safeguarding the jobs of our critical frontline workers. Further still, I find it troubling that in order to enforce accountability and find efficiencies within ODOT - a bill needs to be passed. The increased spending by all layers of government needs to stop. Us Oregonians, your constituents, deserve better. I'm calling on you to ask state agencies, like ODOT, to steward our money better instead of raising our taxes. Thank you, Kristi
