Funding

Measure, Appointment or
Topic: LC 2

On behalf of Oregonians who are tired of tax hikes and ridiculous fees, I publicly oppose the ODOT funding bill. Oregon families already struggle to make ends meet, and the increased taxes and higher fees will just add to the problem. The issue is not about a lack of funding but rather the mismanagement of what has already been allocated. Additional funds will not change the situation or fix the problem but rather allow for more poor decisions and wasteful projects. Stop the financial hemorrhaging at the expense of working families.
