Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

Governor Kotek won't take NO for an answer! Oregonians don't want more taxation. They want competent management of the tax dollars that they already pay into the state coffers.

If the new transportation funding bill is passed, citizens of Portland will become THE HIGHEST PERCENTAGE TAX PAYING PEOPLE IN THE NATION!

The governor called President Trump a bully for his warnings to the state about complying with federal law to cease sanctuary state practices. Who is the bully now? Governor Kotek is bullying legislators and Oregonians into accepting the new transportation funding bill.

Stop the bullying, Governor! We don't want the new transportation funding bill! Listen to your constituents!
