Funding

Measure, Appointment or
Topic: LC 2

I live in Tualatin, and am deeply concerned and oppose the transportation tax bill. I love Oregon and want it to thrive under responsible spending, but this is NOT it. I am so tired of saying goodbye to friends that are leaving this state for more affordable living elsewhere. Families like mine are already stretched too thin. All additional taxes and fees are making our daily life unaffordable. Just like my family has had to, ODOT must also tighten its belt. ODOT should refocus its spending and prioritize keeping Oregonians safe on the road. STOP and consider alternatives that don't financially punish Oregonians.
