PLEASE NO MORE TAXES! Our roads are horrible! We already are stretched so thin on our budgets. All the taxes are ruining our Oregon economy, Businesses are moving out of here and no jobs. The homeless situation is beyond horrible and you are not taking care of the people who live here and support your outrageous spending. People who lost their homes to the wild fires still have not been able to rebuild to their former way of life. This spend and tax has to go. Start cutting and learn to deal with your budget the way it is, the same way you force us to do.
