Transportation taxes are unfair to Oregonians. We have budgets that aren't being utilized. Our Governor is fighting the Federal Government when most Oregonians are not with her. In this fight she has lost Federal funding, she needs to figure out how to cut PERS and not tax the constituents. Oregon is failing and those of us who are true Oregonians want our Oregon back. Salem needs to get out of the fowl air and visit Oregon, not just your Democratic city support. Fight for change in Oregon and bring back the love for it's people. Down with taxes that are bleeding the people.
