I am vehemently opposed to ANY tax increase to fund yet another bloated, inefficient, union dominated government organization. EVERY time you politicians don't get your way you throw a temper tantrum like a petulant child. Instead of tactfully evaluating how to provide the most important services with the funds you have, sort of like the private sector has to do every day, you immediately go for the jugular and try to cause the most pain for the tax paying residents especially in rural areas that Portland and Salem despise. Figure out how to cut the waste, I guarantee there is plenty to choose from (DEI perhaps?) and live within your means as the rest of us do. Take this as a lesson on how difficult it is to run a business in what was once a state to be proud of before 40 years of liberalism.
