Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

My husband and I are both retired and on a fixed income. The proposed transportation tax increases would seriously hurt us. We have to live within our means and the government also must do the same. Enough on more taxes. The proposed taxes would really hurt the people of this state.

Our daughter and son in law hardly make it month to month. More taxes would cripple them. They have three children and more taxes would hurt these children.

For goodness sake, please say No. Please stop.
