Measure, Appointment or
Topic: LC 2

I am vehemently opposed to the Governor's transportation proposal. NO MORE TAXES! As businesses and families flee the State (citing high taxes as the reason), it's beyond comprehension that the Governor (and other elected officials in Salem) would even be considering burdening the citizenry even further. We do not have a revenue problem. Oregonians are tired of paying for pet projects and woke agendas. Clean up this State. If we had Economic Diversity & Vitality, Affordable Housing, Stable Infrastructure (i.e. safety & security) and leadership that Encourages an Engaged Citizenry (and listens to the people), Oregonians might actually have E.A.S.E.
