Govenor Kotek,

The cost to live in Oregon is getting out of control. I have lived in Oregon my whole life and have been a single mom for the past 10 years. I have had to work 2 to 3 jobs to be able to afford to live and support my 2 daughters. How is anyone supposed to survive let alone get ahead to save for retirement when you are taxing us to death? The fees at the DMV are already high and any increase is just not acceptable. The overspending by our government needs to stop. Businesses are leaving and small businesses will never make it if you keep up with this ridiculous overtaxing.
