Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

My name is John and I live in Klamath Falls. I oppose this transportation tax. Throwing more of our money will not fix the problem of mismanagement! I don't borrow money from my neighbor in order to keep spending money without change; neither should ODOT. There needs to be an account for the money they have already taken from the tax payers before another dollar is given. Oregonians have seen enough of wasteful spending. We have to prioritize at home and in government agencies. This is a financially difficult time for Oregon families! This bill will make it even more difficult for the families, the working class and local businesses. ODOT needs to cut the fridge spending and focus on keeping Oregonians safe while travel to work, the store, to school and home.

John
