Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

We own a small business in Tigard and over the past several years the taxes have become so outrageous that we often struggle to make payroll. We are almost always late with our bi weekly tax payment because it is so astronomical. Raising payroll taxes will cause an even greater financial hardship for our business and our employees. Please cut whatever program you are trying to fund and stop punishing small businesses and Oregon residents for continued mismanagement and overspending.
