Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

Please do not pass this transportation act. The Governor and her plan only put additional burden on us as we are just trying to make ends meet. What she doesn't seem to realize, is that as every thing we do is taxed, there is less money to spend on doing things we enjoy such as going to a movie, or out to dinner. Hold ODOT accountable to appropriately use the money that they already get, rather than taking every last crumb from Oregon taxpayers.
