Measure, Appointment or Topic:	LC 2

Please stand against this tax hike!

Oregonians are already stretched thin by rising living costs, and this transportation measure only makes it worse. The gas tax increase—likely 12 cents, will hit everyday drivers hard. Doubling the payroll tax means less take-home pay for workers who are already struggling. This isn't the time to squeeze more money from families facing inflation and housing challenges.

This bill won't guarantee better roads or new infrastructure—just more money going into a system plagued by mismanagement and delays. It unfairly burdens lower- and middle-income Oregonians who depend on their cars daily. We need transparency and accountability, not another tax that hurts without delivering results. Please oppose this unfair measure.
