Measure, Appointment or  
Topic: LC 2

Increasing the gas tax yet again and hiking registration fees, and doubling the payroll tax will squeeze Oregonians who are already struggling with high living costs. Many rely on their cars to get to work and school—this bill makes it more expensive for them to do so.

Worse, there's no guarantee these taxes will improve our roads or transit. Past ODOT projects have been plagued by cost overruns and delays, and this bill lacks transparency and accountability. It unfairly targets working and middle-class families without delivering real benefits. We need solutions, not more taxes.

Reject this measure.
