Measure, Appointment or  
Topic: LC 2

A new transportation tax bill in works from Salem; the home of gross fiduciary and other mismanagement that continues to pick the pockets of their subjects...er serfs...ahem citizens. Maybe stop punishing Oregonians. Retirees such as I am are already stretched thin. Any additional taxes and fees will make already unaffordable daily life more so. I get a break on my fishing license but no longer go due to the cost of gas to get into the Cascades to fish the Upper Rogue. I have to keep tightening my belt; ODOT must also tighten its belt and quit p---ing away my money meant for maintaining and improving roads in order to fund one cockamamie grift after another. ODOT's spending must be prioritized keeping to Oregonians safe on the road. It is NOT for your misguided social engineering that somehow always ends up resulting in donations to the Democratic party and Republicans in on the grift.
