Measure, Appointment or
Topic: LC 2

Please stand against this damaging tax proposal! Raising the gas tax once more, increasing registration fees, and doubling the payroll tax will put even more financial pressure on Oregonians already facing high living expenses. Many depend on their vehicles to commute to work and school—this bill only makes it costlier for them to do so.

Even worse, there's no assurance that these taxes will lead to better roads or transit. Previous ODOT projects have suffered from budget overruns and delays, and this bill lacks transparency and accountability. It unfairly burdens working and middle-class families without providing meaningful benefits. What we need are solutions, not additional taxes.

Say no to this measure.
