Not one more dime! ODOT's inability to manage funds effectively is NOT the responsibility of the Oregon taxpayer. They continually mismanage projects, putting in un-needed bike lanes to push us into their dystopian 15-minute city formula by which we will eventually "own nothing and be happy". We have had enough of the leftists nightmare exemplified by the almost 30 Million in CURRENT DEI POSITIONS at ODOT. We have unsafe roads, homeless taking over ODOT property, and our cities all over the state are beyond disrepair. Our once beautiful cities are now eyesores that no one wants to visit. Get back to basics; maintain our roads and bridges and keep the flow of goods of services moving. ODOT has MORE than enough money to keep our state working effectively. CUT THE DEI positions. NO NEW TAXES!
