We cannot afford any more taxes, we just can't. There is no way for us to make more money as a family to absorb the cost of any more taxes.

Please, look again at your agencies budgets. Find where things can be cut back, audit where any waste is taking place, or any redundancies in jobs that could be eliminated.

It's time to start cutting out the "wants" in the state budget and get back to only the basic needs.

Thank you for considering our testimony.
