Funding

Measure, Appointment or  
Topic: LC 2

I currently live in Salem, Oregon and cannot fathom how this government can even consider this outrageous tax bill. It is getting harder and harder to afford to live in Oregon. There is not a funding issue. There is however, mismanagement of funds. ODOT (and our government "representatives") have caused this issue. Taxpayers should not be forced to bail out fiscally irresponsible people. Here's a quick suggestion: Get rid of the DEI department and allocate those funds to improving and making our roads safer. Passing this bill would be taxation without representation. NO NEW TAXES-NO KINGS!
