Topic: LC 2

Stop adding taxes and fees! Please consider the republican plan!

I am on social security and barely making it financially. My thoughts every day are wondering when Im going to have to leave Oregon, my home for my entire life.

Oregon, where my kids and grandson live. I dont want to move away. Please think about what your doing to me and others like me on fixed incomes. We can't keep up with your increases. Please think about us!
