Topic: LC 2

I cannot imagine a more tone deaf group of people than Governor Kotek and the Democrat party. Every person I know and talk to is dealing the weight of taxes, fees, electric costs, gas prices, food prices. Our roads and hwys haven't been taken care of for a long time. If the costs to run ODOT I would expect our leaders to prioritize jobs, maybe move the millions in DEI to other services, maybe be accountable for the billion mismanaged. Oregonians cannot handle anymore tax and spend and it's irresponsible of this governor charge more to citizens!
