Please do not raise our taxes on gas, car license fees, etc. Its already too expensive to pay over \$4 a gallon for gas, \$211+ for 2 years on our cars, \$122 for our motorcycles, etc. Instead of continually raising taxes on the people, you need to find ways to CUT SPENDING. We see gas prices in other states at \$2.50 a gallon and WHY do we have to pay so much more? As seniors on a fixed income, we can not afford any more, its already outrageous.

Thank you-
