The price of living in Oregon is already higher than most states. The Democratic Party is trying to force everybody out of Oregon. Citizens of a state cannot afford to pay more taxes and continue to live here. I was born and raised in the house that I now own and reside in. I hate to move, but I will be forced to if it continuing taxes go up and up and up. My house does not live on a blank check we have to live within our means which is getting less and less every year. It must stop no more taxes. No more DEI or funding illegal aliens no more taxes live within your means.
