Topic: LC 2

No new taxes.

Stop trying to ram new taxes through. Do better with current resources and funding. ODOT has a terrible track record with managing projects. Taxpayers should not be on the hook to bail out ODOT for poor management and funding the wrong priorities.

Polling shows a majority of Oregonians do not want more taxes to fund ODOT. Reprioritize current budget funding to take care of maintenance and potholes.

Audit ODOT. Stop allowing projects to go over budget and over deadlines.

Sincerely,
Virgil Payne
