Funding
Measure, Appointment or Topic: LC 2

Dear Oregon Legislature,

For those of you who listened to your constituents during the last Transportation hearing, I want to thank you profusely for doing right by the Oregon taxpayer.

To Gov. Kotek and all of the remaining legislature: when we said: "No more taxes!!!!," we meant exactly that. Since that vote, it has come to light that you have many other options (e.g., PRIORITIZATION) to get ODOT through tough times. We The People have to prioritize, why don't you?!

Gov. Kotek - if you believe you need these DEI and climate programs funded at the current level in order to build a legacy for your time at the helm of our state, I would suggest you go read what your constituents are communicating on X.com. Stop your nonsensical plight wasting our hard-earned money, or you will find yourself out of a job before your term ends. We all know this is why you won't come out to face the majority of Oregonians in any town halls.

Thank you for reading.
Julie S
