

Submitter:	Janelle Coakley
On Behalf Of:	Self
Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

My husband and I are senior citizens. Both of us worked all our lives and are living on Social Security and a small retirement. We live on a modest "fixed" budget and years ago our retirement money was adequate. But with taxes, gasoline, food and health care costs going up, our budget is already strained. This proposed transportation tax bill is outrageous, thoughtless and unrealistic. The very high increase this tax Governor Kotek and our representatives are planning, would cause my and my husband's daily living costs to be unaffordable.
