Dear JICTF Committee,

I'll keep this short and sweet. You have lost my trust (a taxpayer) in your ability to govern efficiently and conservatively. You have a long history of bad decisions and wasted tax dollars. I am on fixed income, and can barely afford my utility bills not to mention the fuel bill, registration fees, DEQ and mandatory insurance. I will not use public transit, it's dirty and dangerous and seldom on schedule.

No tax increase. No bi-partisan happy talk. End the session and leave me alone!
