| Committee:                        | Joint Interim Committee On Transportation<br>Funding |
| Measure, Appointment or<br>Topic: | LC 2   |

Almost every one I know are having a hard time making it financially, folks are already stretched to their limits, food, gas, rent, are way too high, in debt living off credit cards with high interest rates, can't afford vehicle repairs, car insurance, medical expenses, businesses closing, folks losing their jobs causing homelessness, The Democrats trying to Pass the transportation bill is tyrannical, they need to control their spending. are they trying to destroy the middle class? Maybe that's they want. They always talk about Democrcey, but we are a Republic. Democrats act more like Communists, they love the Chinese model.

They can't even constrain the States budget, they spend money like a drunk.

Also I have family and friends who have left Oregon and moved to other states so they can prosper and raise their children. Having lived in Oregon for 60 years it makes me sick to what the Democrats have created.

We the people can't give them anymore taxes, we are done, sick and tired scraping by.
