Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

Please DO NOT pass this.

This will be devastating to Oregonians.

Our story is not unique...unfortunately

1. Working multiple jobs to stay above the waterline
2. Owning a small business with continuous increasing fees has us reconsidering doing business in Oregon
3. Live in a community where ODOT does not tend to our local highways and when they have had to, the work is subpar.

Please make ODOT work within their current budget and never agree to anything that bypasses voter participation, EVER!
