I live on a fixed income and having a very hard time, paying my bills and keeping my home before I'm homeless! There's so many more like me on the verge of being homeless because everything is so expensive, and now our governor wants to raise our taxes to help pay for the layoffs at ODOT!! But at the same time wants to give 15 million to the illegal aliens for their legal fees!!!! The insanity of this and the lack of caring about those struggling American is heartless, and insane! Just because our governor has plenty of money, does not mean everybody does, especially seniors!!!! STOP this heartless expensive madness!
