Topic: LC 2

Hello,

As a disabled veteran on a fixed income struggling to survive already. This new bill will absolutely increase my struggle and hardships. This will be the final driver that will make me move out of state.

1. We already pay a higher fuel tax, why keep killing Oregonians.
2. Manage our tax dollars, make it work, you work for us.
3. Tax the tourists, make toll bridges or something, Stop driving Oregonians to poverty.
4. I love this state its my home state, but this has got to stop. I use to be proud to be an Oregonian, now im absolutely embarrassed.
5. Why can't we have price gouging laws in this state? Oh its all about taking from the poor and giving to the rich for unnecessary projects.
