As An elderly person on a fixed income it's getting harder to stay in Oregon with taxes continuously going up. It needs to stop, get a hand.e on the current tax situation, preserving jobs at this price is foolish. I am aware thar I will probably be taxed out of my home that I worked extremely hard at paying off. I can't understand the need for more taxes when you and your ad in waste so much of what is already given. Clean up the budget, and BUDGET.
