Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

Dear Legislators,

You will be gathered to approve Governor Kotek's funding wish list. The consequences of that wish list will be Oregonians paying more money to the State and receiving the same or fewer services. The only policy that the Governor, and many of you, promote is to tax more and spend more. As a senior citizen on a fixed income, I cannot and will not give you any more money than I absolutely have to. In order to accomplish that, we are moving out of this State. We did not want to move but you are forcing us out. I am sure that many other Oregonians are doing the same. Many businesses have already left or closed due to these policies. Perhaps you may want to rethink this folly and study the Laffer Curve,

Respectfully,
