Tina kotex needs to be fired and its sad that she likes to tax the citizens more just to pay for her pet projects and she just is running a scam for her to get rich and instead of taxing the taxpayers more how about we cut her pay to 500 dollars a month until she lives withing her own government budget and better yet I think she need to be recalled and ran out of state after all tina kotex isn't working for the real citizens she only work for the illegal immigrants and the drug cartel tina kotex must be ran out of office or oregon id good as dead
