This is just another tax increase that Oregonians don't want or need! The solution is better management of the funds already taken from our pockets. Get rid of the DEI programs and that would give you \$50K a year to keep the staff. There is absolutely NO WAY this bill should be allowed to take the power from the legislature and give it to the governor to just impose MORE NEW TAXES in the future if the elected officials that are supposed to represent the people have not agreed. There is nothing good about this bill. DO NOT PASS this bill!
