Topic: LC 2

No one in my community, including myself can afford this onslaught of continually raising taxes, and fees. Our State government has continued to take and take and take, and they have abused their power, to the detriment of the citizens and taxpayers of Oregon. Every single item across the board in Oregon has become worse, due to the results of their policies, and rather than the money we have already paid over and over again, and everything from household utilities, the necessities of fuel to get to work, everything is costing more when it does not need to. STOP taxing us, and instead of telling us we need to continue to pay for the mistakes and poor policies Democrats are pushing - how about you put forward bills that REDUCE our taxes, and fees, perform an exhaustive audit of the state budget that is 100% transparent - or better yet, step aside and let people who actually care about Oregon do the needed work to save us from the nose dive Democrats have put our State in. We don't need, and can't afford any more taxes in any shape or form. NO to all new taxes.
