Greetings Legislators and Governor Kotek,

I am very disappointed that I'm having to submit yet another testimony because you guys are not listening to Oregonians who overwhelmingly have stated we do not want more taxes. There are plenty of other ways to fill financial needs of the state aside taxing hard working Oregonians into their graves. My families small business and many others are on the verge of collapse because of the taxes that are already in place let alone if you add more. I've had many friends with businesses already flee the state due to outrageous unjust taxation of Oregonians and more are being given no choice but to leave. You are killing the state with this ridiculousness. You must find a better way to fill your coffers and cut down on wasteful spending. You have had more than enough time and opportunity to do so but yet you still have not and your spending continues to grow more out of control. You are doing Oregonians a major disservice with these taxes and we are tired of it. You are not thinking about Oregonians with these taxes or bettering the lives of Oregonians you are hurting us and this has to stop. FIND ANOTHER WAY! WE DO NOT WANT MORE TAXES.

Thank you for your time.
