Funding

Measure, Appointment or  
Topic: LC 2

My husband and I chose to move to Oregon 14 years ago, to retire and be close to our grandchildren. Over the years our property taxes, utilities, and cost of food have gone up significantly. With constant increases, we are seriously questioning the sustainability of remaining in Oregon. Increasing the gas tax, registration fees, etc., are making the choice for us. I ask that you consider the impact this has on Seniors and persons on fixed income. We love being here and spending time with our grandchildren, but we are being forced to reconsider other states where it is more sustainable for us to live.

Thank you for your consideration in this matter.

Respectfully,  
Connie Trough
