Measure, Appointment or Topic:	LC 2

The legal citizens of Oregon are drowning in the increased taxes, fees, permits and regulations promoted by greedy power hungry legislators and the Kotec administration! What an outrageous and misused representation for citizens! It is a Socialistic/Communistic procedure and method to rule the rights of all of the hard working honest taxpaying people. Especially those raising young families and the retired elderly honest citizens. When the paddle board tax and other outrageous abuse of tax revenue started, it was a vomiting situation. NOW the huge increase on gas tax! Again? Wow!! I will never vote for a democratic candidate, again. Do you understand ENGLISH? This is not Russia or China or North Korea. This is Oregon, USA. Wake up to reality now. Stop the terrific burdensome schemes with taxation.

Eleanor D. Brown
