STOP the taxes! Oregonians already pay some of the highest taxes in the country and it just keeps increasing. I am a working mom with 2 young adults who are trying to thrive in our state but struggling. The high cost of renting, the high gas prices and now you want to add even more. How are our young people supposed to live and work in a state that is taxing them every time they turn around? We are going to lose the next generation if we don't stop! I am against all of these new taxes and suggest we look at where the current funds are going and do like the rest of us do - budget and prioritize.

Oregonians do not have endless funds that you can keep stealing from. Look at what needs to be done and use the existing budget to meet the needs. Leave the rest of us alone for once...we can't keep going like this!
