Measure, Appointment or
Topic: LC 2

I am opposed to raising the gas tax 15%. Last time it was raised 5% another 5% is a total of 10% which is plenty for families and businesses to pay. Our state is all ready very expensive to live in for the average person or business. This 15% will not help. We have the nation's only wage tax to pay for transit and the DMV fees were raised last year. Enough is enough on the our shoulders.

Thank you for your time,
Janet McKeehan
