Gov Kotek

As a born & raised Oregonian I have seen the changes coming into our communities and their negative impacts. Your proposed tax increases are NOT what we Oregonians need. We need you to be fiscally responsible & work within the State's budget like us responsible adults do every month. Oregonians can NOT afford these tax increases and apparently can't sustain their livelihoods having you as their governor. Your policies are driving businesses to relocate out of our great state and set up in other states that are more welcoming and supportive. You have failed to listen to Oregonians. Why do you refuse to consider working with Republicans to balance the budget? We have told you again and again no more taxes and YOU WORK FOR US! Your time is up. I will be signing to have you recalled because you are ruining our beautiful state with your partisan and narrow-minded policies.
