Dear Governor and Joint Interim Committee on Transportation Funding,

Oregonians do not want any more taxes, we cannot afford anymore taxes. We the people do not approve of this new "Transportation Package" in the name of ODOT.

Please listen to us:

*NO new gas taxes

*NO new DMV fees

*NO new payroll taxes

*NO new charges on electric vehicles

*NO to the Governor electing themselves to hire and fire the ODOT director (conflict of interest)

We the people pay some of the highest taxes here in Oregon and are tired of being asked for more, when leadership is not doing what they are elected to do. Stop asking us to fill in for mismanaged funds in the name of transportation.

Sincerely,

Liisa Maki
