Many Oregonian constituents have wondered how & why it is that while many states across the nation have been experiencing rapid price drops at the gas stations, yet that is NOT THE case here in our state. Now we find out why & are NOT happy about the tax hike, 6% of which goes to the roads, while unethical, greedy politicians grab the rest for who knows what nonsense! Is it to spite our dually elected Federal Gov't. who's efforts gave ALL Americans a break in our COL? If so, grow up!
