it is my opinion that the administer is receiving to high of a salary and too many benefits. Reduce cost there before raising fuel prices. Must not be administering very well if keeps running out of money for roads. Maybe too many extras in the budget and not using the money as specified by law.

Have not seen any road tax cost to electric vehicles. They use the roads and cause wear on the roads and should pay a fee for that use.

If the tax increase passes it should be worded that the increase can only be used for road repairs.

Kotek does not seem to know how to manage money. She should learn that instead of raising taxes when ever she uses it all up or thinks she has.

Maybe a pay reduction across the board for all State Employees would be more in order.
