Dear Legislators -

Please accept my testimony regarding the Special Session on Transportation Bill.
Please know, the "special session" is not lost o most thinking citizens of the state.
Please do not do this to this state. We are so low in education, high in spending and
our capital projects we funded in 2017 have not been begun, let along complete.
Oregon can't take more taxes and raises in fees. Please NO! Don't do this to our
state. - Elaine Redner, Eastern Oregon
