I can't afford any more money taken out of my monthly income. Gas prices at the pump are already higher than the national Average. I live paycheck to paycheck. We have a huge problem in the state of Oregon with mis-management of funds. It's time for Oregon to start thinking about its American Born Citizens and less about taking care of Illegal Immigrants. All these new taxes are getting ridiculous and it is getting harder and harder to feed and cloth our families and support our community.
