Leadership needs LEAN OUT expenses, reorganize, and be more accountable instead of increasing taxes and fees for the entire state! This kind of choice chokes Oregonians! Get your foot off our necks! Oregon is near the top for the worst taxes and cost of living, while still ranking at the bottom for education and business are suffering as well! That hits JOBS! Dems keep asking without providing! These unnecessary increases hurt the most vulnerable and our elderly on fixed incomes the most. My disabled aunt cannot afford paying more for gas and title fees. THAT'S HORRIBLE!! We already took on a 1% payroll hit to pay for people on maternity and paternity leave. That was A LOT! Now another 1%!! NO!!!! NO MORE MONEY! NO MORE TAXES!! Operate within your means, we have to! Listen to the Republican leadership!! Stop lying in your public statements about all the services that will suffer! That's straight up fear mongering and manipulation. We see right through it, the DEMS are making living in Oregon impossible!
