I'm writing as a concerned Oregonian to urge you and our state leadership to AVOID ANY NEW TAX INCREASE!!!! Many of us, including myself, cannot afford to take on additional financial burdens. Like countless others, I am struggling to meet basic expenses, and another tax hike would push my budget beyond its limit. I respectfully ask that the state prioritize responsible budgeting within the revenue already provided by Oregonians. I think you can find creative and efficient solutions for Oregon's needs without placing further strain on hardworking residents. Please consider the real impact that additional taxes would have on families and individuals across our state

Thank you for reading and listening to the voices of the Oregonians. I hope you will work to ensure that our state's budget reflects the financial realities facing SO MANY OF US

Heidi
